

Lumio X200 Wi-Fi Router · User Manual

Model LX-200 · Firmware 3.4 · English edition

1. What's in the Box

- Lumio X200 router
- 12V power adapter
- 1.5 m Ethernet cable
- Quick start card

2. Setting Up Your Router

1. Connect the router's yellow **WAN** port to your fibre modem with the Ethernet cable.
2. Plug in the power adapter and wait about **2 minutes** until the light turns solid white.
3. Connect to the Wi-Fi network printed on the label under the router (for example *Lumio-7F3A*).
4. Open the Lumio Home app or go to **192.168.50.1** in a browser and follow the setup steps.

The default admin password is printed on the label under the router. You will be asked to change it during setup.

3. Light Meanings

Light	Meaning	What to do
Solid white	Connected to the internet	Nothing, all good
Blinking white	Starting up or updating firmware	Wait up to 5 minutes; do not unplug
Solid orange	No internet connection	Check the cable to the modem, then restart both
Blinking orange	Ready for setup	Open the Lumio Home app
Red	Hardware fault	Contact support

4. Factory Reset

A factory reset erases all your settings, including the Wi-Fi name and password.

1. Keep the router switched on.
2. Press and hold the **Reset** button on the back for **10 seconds**, using a paperclip.
3. Release when the light blinks orange quickly.
4. Wait about 3 minutes, then set up the router again.

5. Troubleshooting

The internet is slow

Place the router in an open, central spot, at least 1 metre above the floor and away from microwaves. Switch on **Smart Band** in the app so devices move to the faster 5 GHz band automatically.

A device can't connect

Forget the network on the device and reconnect. If you changed the Wi-Fi password, use the new password. Older devices may need the 2.4 GHz band, which you can split out in Settings → Wi-Fi → Advanced.

Parental controls

In the app, open Family → Add profile, assign devices, then set bedtime schedules or block categories.

6. Warranty and Support

The Lumio X200 has a **2-year limited warranty** from the date of purchase. Contact support through the app chat (24/7) or call 800-LUMIO (800-58646), Sunday to Thursday, 9:00 to 21:00.
